Portfolio: <https://mecyportfolio.netlify.app/>

Profile

Software Engineer with hands-on full-stack development experience, building web applications from end to end. Comfortable working across the stack — from React frontend to backend and database design. Passionate about problem solving, continuous learning, and contributing to meaningful software projects.

Technical Skills

Core Stack:

- JavaScript | TypeScript | React.js | Node.js (Express) | HTML | CSS
- MongoDB | MySQL | SQL | NoSQL | REST API integration
- Git | GitHub | VS Code | Postman | Vercel | Rende | Figma | Framer

Working Knowledge:

- Python (scripting, data handling, basic automation) |
- C# (object-oriented programming, console applications)

Academic Exposure:

- C, C++, Java
- Adobe Illustrator, Adobe Photoshop

Projects

- **TrashLance — Full-Stack Service Platform | 2025**
 - ✧ Built a MERN application connecting users to waste management services with booking, reporting, and real-time tracking.
 - ✧ Implemented REST APIs, database schemas (MongoDB), and Express backend services.
 - ✧ Designed responsive React frontend for seamless user experience.
- **AnatomyTime — AI-Powered Education Platform | Final Year Project | 2026**
 - ✧ Built a MERN (TypeScript) platform enabling anatomy students to generate quizzes and flashcards using the Gemini API.
 - ✧ Implemented image-based interactive quizzes and community sharing features.
 - ✧ Designed full stack: React frontend, Express/Node backend, MongoDB storage.
- **HR Management System — Enterprise Dashboard (Frontend) | 2024**
 - ✧ Built a React-based dashboard prototype with modules for employee management, recruitment, attendance, performance tracking, and reporting.
 - ✧ Focused on clean UI/UX for non-technical administrative users.

Education

- **Industrial Attachment — East Africa School of Aviation, ICT Department (June – August 2025)**
 - ✧ Supported ICT operations and gained exposure to enterprise systems and technical support workflows.
- **Personal & Academic Projects — 2023 – Present**
 - ✧ Consistently built and shipped full-stack applications throughout study period, demonstrating self-directed learning and delivery.

Work Experience

- **BSc in Software Engineering** — Zetech University, Ruiru Campus
- Expected Graduation: December 2026

Interests

- **SOFT SKILLS**
 - ✧ Problem solving | Attention to detail | Communication and collaboration | Adaptability
- **INTERESTS**
 - ✧ Software development | Data-driven systems | Software project management lifecycle | UI/UX design
